

CTOUCH RIVA 2

Behind every great teacher is a great touchscreen. The CTOUCH Riva 2 is that touchscreen.

Engage and inspire students with our all-purpose, intuitive education technology tool. Make your lessons come alive!

All good things come in twos

The CTOUCH Riva 2 is available in two models: the CTOUCH Riva R2 and the CTOUCH Riva D2.

The CTOUCH Riva R2 is a state-of-the-art education technology solution, the perfect companion to the most modern of classrooms. The CTOUCH Riva D2 is the best choice for schools looking for a cost-effective teaching tool.

The teacher-friendly touchscreens offer a smooth writing experience, rich sound and the compatibility to run all different brands of teaching software. Both models are enrollable in the CTOUCH Heartbeat As-A-Service programme, providing a lifetime of safe and supported touchscreen usage. So that leaves you with just one choice: do you want the best or the very best? You decide.

| Accessories included | USB-C cable, HDMI cable, Touch out cable | HDMI cable, Touch out cable |

✓ **The best handwriting experience, hands down**

To achieve the most accurate handwriting experience, Riva R2 and D2 combine zero air gap with the unique TrueBeam Touch+ technology. Want to keep your touchscreen squeaky clean, lesson after lesson? The Triple S Glass on the Riva R2 is your friend.

✓ **Enjoy crisp audio in all corners of the classroom**

Whether it's watching a film with your students or having a pupil join classes remotely, the powerful speakers will ensure the sound easily reaches even the farthest corner of the classroom.

✓ **ESharing is caring**

Inviting up to 50 students to join a teaching session has never been easier, thanks to the pre-installed full licensed version of EShare on both Riva R2 and Riva D2. Pupils can instantly share their Windows, Android or Apple device wirelessly to the touchscreen.

✓ **Save Watts and Watts of money**

Schools are not made of money. To combat high energy prices, both R2 and D2 have low energy consumption – in fact, one of the lowest in the market! Furthermore, CTOUCH Riva R2 comes equipped with smart on/off. This technology causes the touchscreen to only use energy when really needed. R2 starts up when someone enters the classroom and shuts down when no person is detected for a period of time.

✓ **Enjoy Riva R2 and D2 for a lifetime with Heartbeat Safe – free for 1 year!**

Want to enjoy your touchscreen as long as possible? Simply enroll in the CTOUCH Heartbeat As-A-Service programme to receive a lifetime of security and functionality updates and access to remote management tools and trainings. At the end of its lifetime, we will repurpose the touchscreen. They even come with 1 year Heartbeat Safe for free!
