

Schools looking for the latest and greatest when it comes to their teaching equipment can stop their search: CTOUCH Riva R2 is here! Jam-packed with powerful hardware, crystal-clear JBL® sound and a wonderful writing experience,

Riva R2 is the perfect addition to the state-of-the-art school's most modern classroom.

The best just got better

The successor of the massively successful CTOUCH Riva, CTOUCH Riva R2 brings all what made the first Riva popular to the table, and so much more. This allows teachers around the globe to stay on top of their teaching game.

CTOUCH Riva R2 is perfectly equipped for any teaching situation. It is built on an open platform, allowing any teaching software to run effortlessly. It packs the latest and greatest hardware available for lightning-fast, uninterrupted operation. It captivates students with crystal-clear JBL® audio. Add a lifetime of safe and supported usage thanks to CTOUCH Heartbeat and very low energy consumption to that and you have the perfect match for the classroom of today and tomorrow.

**CRYSTAL-CLEAR
80W JBL® SOUND**

**HEARTBEAT
PROGRAMME
COMPATIBLE**

✓ **Experience the best handwriting experience**

Combining zero air gap and TrueBeam Touch+ technology with our popular Triple S Glass, the CTOUCH Riva R2 delivers a writing experience that's fast, clean and smooth. To try it is to believe it!

✓ **Earth-shattering audio**

Whether watching a film with the students or having a pupil join classes remotely, the powerful 80W JBL® speakers will ensure the sound easily reaches even the farthest corner of the classroom.

✓ **ESharing is caring**

Inviting up to 50 students to join a teaching session has never been easier, thanks to the pre-installed full version of EShare. Pupils can instantly share their Windows, Android or Apple device wirelessly to the touchscreen, posing no interruptions to the class at all.

✓ **Save Watts and Watts of money**

Schools are not made of money. To combat high energy prices CTOUCH Riva R2 comes equipped with smart on/off. This turns the touchscreen on when someone enters the classroom and turns it off when there is no one there, only using energy when it is really needed. And when energy is consumed, this model already has one of the lowest energy consumptions in the market.

✓ **Enjoy Riva R2 for a lifetime with Heartbeat Safe –free for 1 year!**

Want to enjoy Riva R2 even longer? Just enroll in the CTOUCH Heartbeat programme to receive a lifetime of security and functionality updates and access to remote management tools and trainings. At the end of its lifetime, we will repurpose the touchscreen. The CTOUCH Riva R2 even comes with 1 year Heartbeat Safe for free!
