UBOARDMATE CC

(For Windows)

Teaching software so intuitive, you already know how to use it!

CTOUCH®

The power to engage

We understand one of the biggest pressures of teaching, is time.

Having teachers learn a new piece of software for the classroom isn't the best use of that time – especially if the software has thousands of features that are never really used!
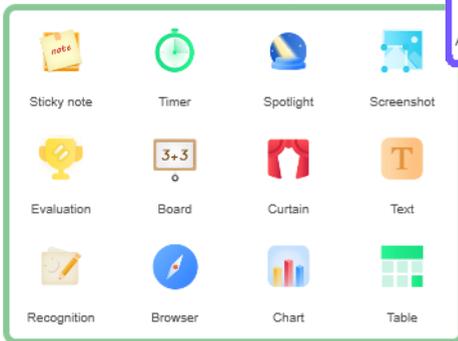

So we take the same approach to software as we do with our **RIVA** touchscreen; it should be so intuitive that teachers can use it without hours of training.

UBoardMate Creative Classroom comes free (for life!) with all of our **RIVA** touchscreens and is packed with only the most important tools for teaching. **CREATE** lessons from home and seamlessly **DELIVER** them in-class with the benefit of **TOUCH**. It really is that simple.
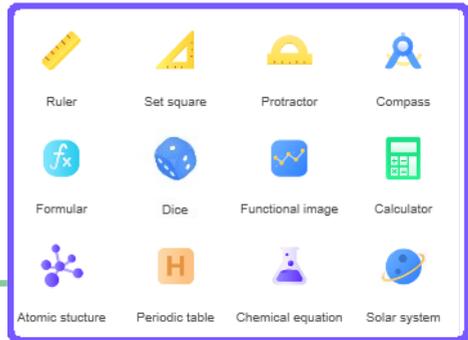

The perfect classroom companion

UBoardMate allows users to take notes, brainstorm and educate with a range of built-in tools for Maths, Geography, Science and more.

Rich subject tools

|			
Ruler	Set square	Protractor	Compass
Formular	Dice	Functional image	Calculator
Atomic stucture	Periodic table	Chemical equation	Solar system

Practical teaching tools

Sticky note	Timer	Spotlight	Screenshot
Evaluation	Board	Curtain	Text
Recognition	Browser	Chart	Table

The software features both practical, familiar and unique teaching tools.

With all these tools (and more) available at the touch of a button through the easy to navigate interface – lessons become seamless!

Science made easy with pre-loaded tables

Magnification tool to focus the class

The power to engage

UBoardMate CC
Device Collaboration

UBoardMate...

From the RIVA screen, teachers can push content to the devices of the class participants.

The software also supports live polling, messaging and file transfer.

UBoardMate CC
Assisstant App

With the free UBoardMate CC Assistant app*, teachers have even more tools available to them which help them move around the classroom whilst maintaining control of the touchscreen.

The App also features:

- *Wireless Camera* – Take pictures or video in real time from a device and share 'live' on the Riva!

- *Remote control* – Control the on-screen software from your device with full touch integration.

- and much much more!

* Available Summer 2021

But that's not all...!

All types of media content – pictures, audio and videos, can easily be imported

Multi–touch capabilities – supporting pinch, zoom, rotate and more.

Use UBoardMate's annotation tool over digital content including PDFs and websites

Open SMART Notebook (.notebook), ActivInspire (.flipchart), and play and edit .IWB files

Multiple functional backgrounds available such as grids, tables, lines and charts

Content can be saved and distributed in multiple file formats, including native .UBM

7 languages supported upon launch, including English, German and French
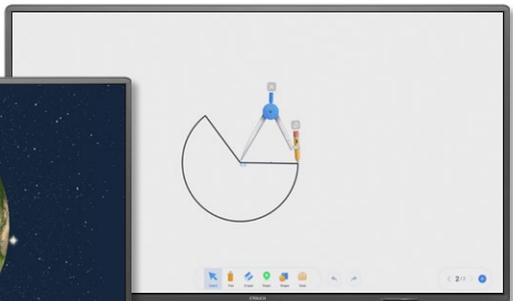

Capture screen images, and record audio & video files

Many software file types like PowerPoint, PDFs and Excel files can be linked

Handy Maths tools for live demonstrations

Rich content for engaging topics
